2020 – 2021 **Full Stack Trainee**
Shebeen el kom, Egypt *Information Technology Institute*

CERTIFICATES

- Introduction to web
- Web Development
- Back End Node.js
- INTERNATIONAL COLLEGIATE PROGRAMMING CONTEST

LANGUAGES

- Arabic
- English

SKILLS

- HTML/CSS
- Nodejs
- JavaScript
- Express
- MongoDB
- MySQL
- GitHub
- React
- PHP
- Problem Solving
- Testing
- Time management
- Active listening

PROJECTS

Faculty Management System

The Faculty Management System is a comprehensive web based application developed using Node.js, designed to streamline and optimize administrative processes within educational institutions. Tailored specifically for managing faculty-related tasks and students. This system offers a robust set of features to enhance efficiency and organization.

- GitHub: *https://github.com/mostafa569/Soooooooooft*

Library Management System

- Admins can add new books to the library catalog, including details such as title and author.
- Admins can view and manage user transactions, including borrowing and returning books.
- Users can create an account or log in to their existing account to access personalized features such as book borrowing and renewal.
